5+ Years building B2B SaaS & EdTech products

FULL TIME WORK EXPERIENCE

Senior Product Manager | JoVE | Bangalore (Remote)

[Sep'23 – Present]

Led higher education products (Quiz, Playlists, MyClass) and LMS integrations

JoVE Quiz (Formative, Video-first Quiz Product)

- o Led full redesign of the quiz experience across web and LMS, informed by competitive analysis (Quizizz, Kahoot), delivered a modern UI and streamlined user flows
- o Expanded the quiz library by 13,000+ AI-generated and expert-verified questions (22k → 35k, +50%), improving subject coverage and assessment flexibility
- o Released AI-powered quiz translation across 14 languages; non-English quizzes accounted for 15% of total quizzes created in 2025, driving global adoption
- o Impact: Quiz creation grew by **2.5x** (4k → 10k) YoY, student attempts **5x** (15k → 75k) YoY, comparing 2023 to 2024

JoVE Playlists (Content Curation and Learning Paths)

- o Launched 'Playlist Library' that maps JoVE videos with popular textbooks, courses, and exams, making it easier for professors to adopt content mapped to their curriculum
- o Implemented playlist upload to LMS through Common Cartridge (CC) files (for non-LTI flows) and LTI-based support to add playlists as individual, reorderable videos
- o Impact: Playlist users grew by **2x** (9k → 19k) YoY and playlist creations **3x** (45k → 140k), comparing 2024 to 2025; **40%** of these playlists were exported as CC files

Implementing Faculty Adoption Sales Model and Redesign of app.jove.com

- o Delivered Faculty Adoption Model (FAM) inspired by textbook publishing, supported by market research across North America and Europe (40+ interviews), and implemented a hybrid FAM + Library model with ISBN bundles and access codes
- o Spearheaded the redesign of the core application and established a centralized design system aligning UX across Quiz, Playlists, MyClass, navigation, and video pages
- o Impact: Generated **\$200K** revenue in 2025, with an additional **\$1.4M+** pipeline for 2026

Product Manager | Superset | Bangalore

[Feb'21 – Jul'23]

Led core products including College Platform, CRM, Resume Builder & Help Center

- o Shipped a college CRM to manage employer outreach and placement invitations, driving **\$15K** in revenue from 5 paid clients in its first year (2022)
- o Decreased client onboarding time by 3x by implementing new SOPs and product enhancements (bulk course and student management features); supported 350+ colleges (**ARR \$450K Cr, churn <6%, NPS improved by +6**)
- o Reduced avg. registration time from 15 to 6 mins, increased job application rate by **35%**, and captured 70+ data points per student via an improved registration flow
- o Ideated and implemented institute-branded resume templates and AI-based resume improvement suggestions, generating **\$6K** in revenue from 10 paid clients (2023)
- o Introduced Superset Help Centre using Zoho SalesIQ and Zoho Helpdesk (Avg. DAU 12k); Deployed a tree-based student chatbot, reducing ticket by **19%**, improving resolution time by **60%** and reducing support costs by **\$13K** per year

Data Engineer II | ABInBev | Bangalore

[Jul'20 – Feb'21]

Worked in the Budweiser Logistics Data team after receiving a PPO post internship

- o Analysed and evaluated 15+ vendors across 13 parameters for Data Catalogue implementation in Canada and China, and supported the definition of logistics data strategy to accelerate annual logistics transformation objectives
